Professor Heath provided high-level pre-recorded lessons before each class period that really broke down concepts that I read in our textbook. His explanations were better than what I read in our textbook that I didn't need to read the textbook after the first 5 class periods and just focused on his recordings and class recordings to grasp concepts
I did all of the suggested homework and scanned through the readings. The one thing I did not do that I should have was worked through all 3 cases instead of just the one we turned in.

Course Materials

Considering materials I was asked to purchase for this course:

Thank you!
I don't think the book is necessary for this course as the professor does a great job going over the materials in the recorded and live lectures.
I used them when doing the suggested homework and I referenced the textbook during open book quizzes

Professor Heath is a phenomenal teacher and really helped me understand finances. It is because of his great teaching that I am focusing on Finance for my course electives
I am not interested in finance but the class was enjoyable to offered reasons for it to exist.
Very applicable. I would argue one of the most applicable courses i have taken so far.
Professor Heath was well organized. Class ran smoothly and very rarely were there any interruptions. What he taught in class is what we saw on our exams and we didn't ever see anything that was already talked about.
Professor was awesome, class was awesome, lectures were great

I was really nervous for this class. I thought it would be really boring and it would kill me. But Davidson made it interesting and fun! Also, really appreciate the 3 hour class.
I enjoyed this course greatly and learned so much applicable information. For such a "dry" subject, I found it very interesting.

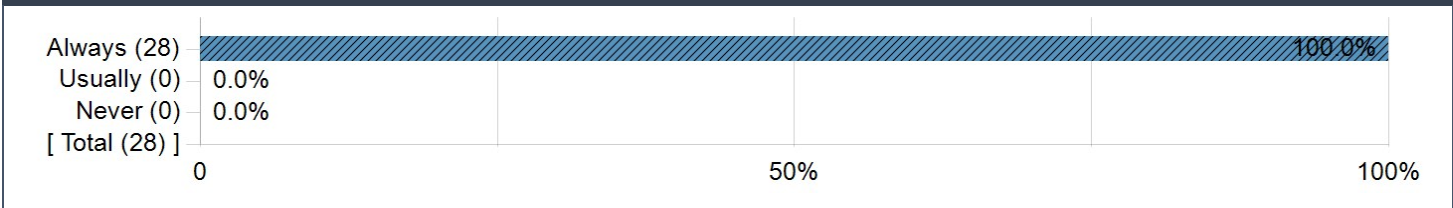

I would recommend this instructor.**Please explain:**

Professor Heath was very good. I liked that he had material we could study before class and then that he would come to class and review that material and go more in depth.
Davidson is one of the best if not the best instructor I've had in the program. Cool guy, really smart, very reasonable with expectations, grades, and assignments.

The class was fairly quiet and non-participatory due to the option to have cameras off during class.

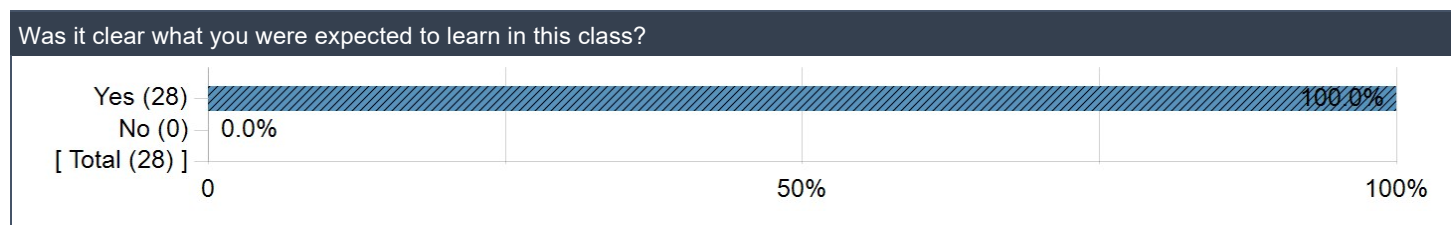

Professor Heath and Sam were both wonderful!

Professor provided the quizzes from the last 3 years to study from and I thought it was EXTREMELY helpful!

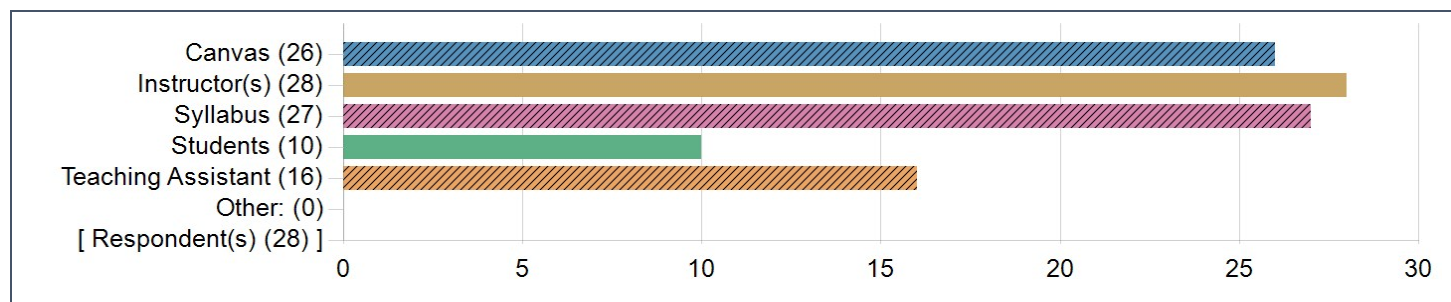

The environment in this class was very conducive to asking questions when needed. You were never made to feel dumb and all questions were taken seriously.
